

If you can  
tear paper—  
you can decorate your home.

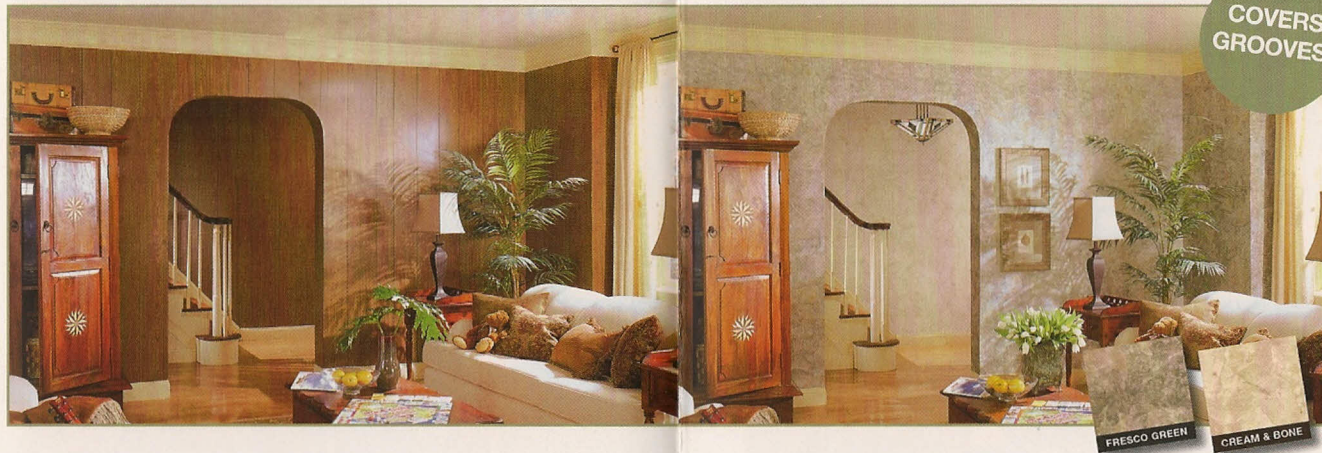

**PaperIllusion**® from Village makes having the stunning effect of faux finishes anywhere in your home easier than ever. Transform ordinary walls into beautiful faux finishes without the hassle of messy paints and glazes.

Easy to start, easy to stop, clean up is a breeze! Get fabulous faux finishes on your own in 3 easy steps, without the help of an expensive expert or pricey materials.

All you need is **PaperIllusion**®, a container of water and a smoothing tool and you're on your way to creating a fabulous faux finish!

**PaperIllusion**® is a special paper that adheres to itself, so you can overlap the pieces to create the look you want.

before  
& after

Best of all—

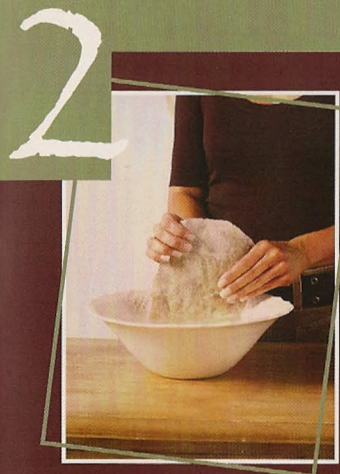

**PaperIllusion**® is easy to hang, washable and easy to care for!

It's that  
easy!

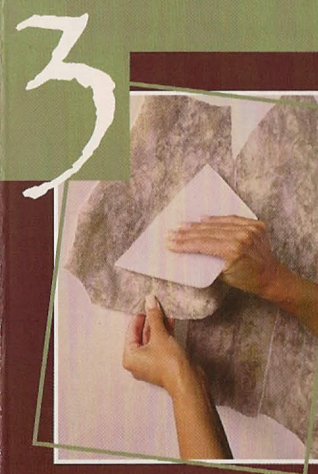

### 1 3 Simple Steps:

Begin by randomly tearing paper into irregular shapes. Tear larger pieces first, about 8" x 12", then smaller pieces as needed.

Dip pieces of paper into warm water and make sure the entire pasted side is wet. Allow excess water to drip off into the container.

Apply **PaperIllusion**® to your primed wall or ceiling. Use your smoothing tool to remove excess water and wipe with a slightly moistened sponge. Place the second piece with its edges slightly overlapping the first piece.

Easy to remove too! Just moisten the wall with warm water until the pieces peel off.
